

## ER SMART INDUSTRY CONFINDUSTRIA EMILIA-ROMAGNA SYSTEM PLAN

A new opportunity for the development of companies in the area of Emilia and Romagna that want to develop a process of organizational, technological innovation, and market oriented to improve their competitive positioning.

The training plan ER SMART INDUSTRY allows entrepreneurs, managers and key actors of Emilia Romagna companies to take part in training activities of five strategic supply chains divided in Operations:

ER SMART FOOD for the food supply chain

ER SMART MECH for the mechanics, mechatronic, motoring supply chain

ER SMART FASHION for the textile and fashion industry supply chain

ER SMART HEALTH & WELLNESS for health and wellbeing supply chain

ER SMART HOME for furnishing – home decor supply chain.

The training inter-company actions, duration 24 hours, will be integrated by a consulting support of 8 hours, targeted to each company involved, to transfer training contents in specific business strategies.
