

Deal with Digital work-based learning

October 13, from 1:00 - 2:00 PM

ONLINE EVENT

Digitization has entered overwhelmingly into all training systems, implying new ways of designing work-based learning experiences. The business schools in the Confindustria system, which work closely with companies on dual character training, are questioning what pedagogical methodologies, what technological tools can help reinvent the WL approach in virtual learning environments. Which is a best practice in Digital work-based learning? Which are the possible applications scenarios? Which are the key elements and competences to design VET blended courses?

We will try to answer these questions during the event through a specific focus on the Deal with digital work-based learning project, an Erasmus+ project developed by an international Consortium lead by SFC and made up of 8 partners from 5 European Countries

Agenda

1:00-1:15 PM

Welcome and Introduction
SFC Ivana Russiello and Francesca Galanti

1:15- 1:30 PM

Key elements and best practices in Digital WBL
Universitat Oberta de Catalunya (UOC) Montse Guitert, Teresa Romeu and Pablo Baztán Quemada

1:30-1:50 PM

Co-designing the project competence framework
Duale Hochschule Baden-Württemberg Laura Eigbrecht

1:50-2:00 PM

Question time

2:00 PM

Meeting closure
